

Dear MUSSA

I hope you and your family are well. I would like to tell you about our season called Spring.

I always feel happy when Spring comes as I don't enjoy the cold of winter. I know it is Spring time because the days stay lighter for longer and the flowers and leaves on the trees start growing again. Spring is a time that represents new life. Not only is this when the vegetation starts to grow back and our area looks greener, it is also lambing season, when sheep give birth. It is exciting when we feel the days getting warmer and we see small yellow or purple flowers called crocuses, because we know we can put winter behind us.

I like to start walking more in Spring, because it's not so cold and it rains less. This makes me feel happy because I like to spend time outdoors, especially riding my bike.

UK Spring time is, March, April and May.

What is the weather like for you at this time of year?  
What seasons do you have? What are they like?

Best wishes, your sponsor

Stephen
